To Whom It May Concern;

I have had the pleasure of knowing and working with David Bottomley for 20 years. Few times in my 50 years of employing quality people to work with have I found a more capable, and honest and intelligent employee. David worked as a representative and innovator of new products for Panola Pepper Company. He brain stormed the initiation of a new line of products, namely Fuego line of hot sauce and a "Java Jazy" and "Kick" energy drink. As a thinker an inventor of new ideas David was eager to come on board with great ideas.

Knowing David the few years I had the pleasure, I can recommend David highly for his thinking ability and innovative ideas.

My Sincerest Regards,

  
Grady Brown
